This User’s Manual provides quick access to information about Hanvon® Drawing Tablet or Hanvon® Graphics Tablet.

◆ This User’s Manual does not contain detailed information of any software from third party.

◆ Due to our continuous updates on the product, all figures in this manual are only for reference, the actual item is the standard.

Chapter 1 Graphics Tablet
Introduction

1.1 General Introduction

The Hanvon Graphics Tablet allows you to create graphics on a computer using a cordless and battery-free digital pen. It is very easy to use. You don’t need to be an experienced graphic artist to use it. This USB graphics tablet supports a variety of professional painting and photo editing software including Painter, Photoshop, Ulead Photolmpact, Flash, Dabbler, Maya, PaintShop and more.

1.2 Features

- Express Keys and Touch Ring
- Uses standard USB without the need for an external power adapter
- Cordless and Battery-free Digital Pen
- Pressure Sensitive Technology
INTRODUCTION

- Eraser and Programmable Switches on Stylus
- Widescreen and Multiple Monitors Supported
- Vista/Windows 7 Supported, Windows & Mac compatible
- Software Supported: Painter / Photoshop / Ulead PhotoImpact / Flash / CorelDraw / Dabbler / Maya and a variety of graphic processing software

1.3 Quick-Start Tutorial
Holding the pen

Hold the pen as usual.

- The pen will take effect when it comes within 10mm above the tablet.
- While using the pen, be sure that your thumb or index finger can easily control the programmable buttons on the pen, which act as the “right-click” and “double-click” key of a mouse individually.
Positioning

Moving the pen in the active area of the tablet will control the cursor’s position on the computer screen.

The pen and tablet use the Absolute Coordination method. This means the active area of the tablet represents the entire
INTRODUCTION

computer screen. Moving the pen on the tablet creates a corresponding movement of the cursor on the screen.

**Single Click**
One slight touch of the pen on the tablet has the same effect as a single left-click of the mouse.

**Double Click**
Two immediate clicks on the tablet have the same effect as a double left-click of the mouse.
Double Click Technique
When the cursor is positioned, press the tablet twice immediately with the pen tip, making sure that you do not move the pen tip. The response for the double click can be slow for beginners. You can solve this problem by adjusting the double click speed from the normal setting of the tablet.

Dragging
Select a target by pressing the pen down on it, and do not release the pen till you have moved the target to the new position you want.
Pressure Sensitive Painting
With 2048 levels of pressure sensitivity, the drawing pen can sense tiny pressure from light hand. Let users work easily and comfortably like the feel of traditional painting, smooth drawing and brush stroke effects by pressing harder or softer with the digital Pen.

The software that supports pressure sensitivity includes Adobe Photoshop, Painter, Flash, Ulead PhotoImpact, Art Dabbler etc.

Express keys and Touch Ring
Express Keys are programmable as function keys, keyboard shortcuts, mouse clicks, launching applications, and pop-up menus.
INTRODUCTION

User may zoom, scroll, change brush size, rotate canvas in applications by using finger sensitive Touch Ring.

**Ambidextrous and Switchable Design**
Ambidextrous and switchable design is adorable design for both of left handed and right handed user. Users may find comfortable position by simply switch the tablet to right or left.

**Eraser and Programmable Switches on Stylus**
Featuring Hanvon’s Pressure Sensitive Technology, the stylus senses tiny pressure from Pen tip. Pressure Sensitive Eraser on stylus brings convenient tool to modify art work. Two programmable switches on pen body enable user to customize the function of switching according to user’s habits.
Chapter 2 Instruction for Windows Systems

2.2 Installation

Connect the drawing tablet’s USB cable to the computer’s USB port.

**Step 1**
Insert the driver CD into the CD-ROM drive. The Installation Menu should pop-up automatically. If the menu does not
INSTRUCTION FOR WINDOWS SYSTEMS

appear, double-click the My Computer icon on the Desktop, find the AutoRun.exe file under the CD-ROM’s root directory, and double-click it.

**Step 2**
Click on Install Driver for Graphic Tablet button to install the driver and click on Install Hanvon Soft to install the bundled software.

**Step 3**
After installing the driver and the bundled software, read this manual for detailed information on using and customizing your graphics tablet.

**Note:** If the tablet cannot be used after driver installation, please restart your computer.

2.3 Uninstalling

**Step 1**
Click the Windows Start button and then select Control panel.

**Step 2**
Double click Add/remove program in the control panel window and find Tablet Driver.
INSTRUCTION FOR WINDOWS SYSTEMS

Step 3
Click *Uninstall* and follow the prompts to remove the tablet driver.

2.4 Configuration

Hanvon tablet driver provides a configuration window to set pen pressure, working area, dual-monitors, double-click speed, express touch keys, etc.

Before Configuration
  • Connect the graphics tablet to the USB port on your computer.
  • Go to *control panel*.
INSTRUCTION FOR WINDOWS SYSTEMS

- Double-click the *HW Tablet* icon to open the configuration interface.
2.4.1 General Configuration

a. Adjusting Pressure Sensitivity
Pen pressure sensitivity can be adjusted by dragging the slider between soft and hard. To create broad strokes, use a soft tip. To draw thin lines, use a hard tip. The factory setting can be restored by clicking the Default button. Adjustments can be saved by clicking the Save button or can be canceled by clicking the Cancel button.

b. Pressure Curve Graph
Pen pressure sensitivity changes are displayed on the Pressure Curve Graph. The images below show the graphs for light and heavy pen pressure respectively.
c. **Pressure Testing Area**

The right area is the pressure test area which is used to test the pen tip feel. The round circle at the upper left corner represents the tile angle between the drawing pen and the tablet surface. All the writing and drawing in the test area can be cleared by clicking the *Clean* button.

**Note:** Only Windows 2000/XP/Vista/7 support tilt angle.
d. Parameter settings
Parameter settings include Nib Pressure Sensitivity, Tilt Sensitivity, and Nib Click Sensitivity. The users can adjust the value to find comfortable operation. Click Default to restore the factory settings, click Save to save the current setting, click Exit to quit.

e. Soft Key Settings
There are two buttons on the Pen: the upper one is “Right Click” by default, the lower one is “double click”. Users can also set buttons to other functions from options in figures below.
2.4.2 Mapping

**a. Single Monitor Mode**
The entire active area of the tablet maps to the entire monitor by default. If your computer has more than one monitor, see
INSTRUCTION FOR WINDOWS SYSTEMS

Multi-Monitor Mode.

b. Multi-Monitor Mode
a) Full Screen
Choose Select Monitor and then select Full Monitor from the drop-down menu. You will see the screen area corresponding to the active area of the tablet is mapped.

b) Screen #1
Choose Select Monitor and select Monitor 1 from the drop-down menu to set the area, then only Monitor 1 can be controlled by the tablet.
INSTRUCTION FOR WINDOWS SYSTEMS

c) Screen #2
Choose Select Monitor and select Monitor 2 from the drop-down menu to set the area, then only Monitor 2 can be controlled by the tablet.
INSTRUCTION FOR WINDOWS SYSTEMS

c. Portion of Screen
Choose Part of Monitor, and then click the upper left corner and lower right corner for the expected area of screen which will be mapped to the full tablet.

d. Auto Setting
The tablet active area can be automatically set by clicking the Auto Setting button to be 1:1 aspect ratio between tablet working area and the display.

Note: Auto Setting cannot be set in the mode of Part of Monitor.

e. Mapping All Tablet
Click the All Tablet button; driver will automatically adjust the
active area of the tablet mapped to the whole screen.

2.4.3 Express Keys Setting

There are many Express Keys on the tablet. Please see the default function in the bellow picture. The users also can define them to other special functions. The Touch Ring on the tablet is for quick scrolling, zooming, controlling brush size, and enable rotated.

a. Define the function of express keys
There are eight express keys on the tablet. When you
configure the key function, there are two ways to define it. One is to choose the options from the drop-down menu for each key, and then click Save to save the setting.

Another way is defined by pressing the keyboard of your computer. After that, click Save to save the setting or click Cancel to discard the changes.

Example 1
If you want to assign CTRL+A to one of the express keys, select the key you want to set, then press CTRL and A simultaneously on the computer keyboard.
Example 2
Select *Application* from the drop-down menu then *Utility* will pop up automatically. Click *Select* button and choose one application program you want to run then click *OK*. 
INSTRUCTION FOR WINDOWS SYSTEMS

Example 3
Express key can be disabled by choosing Disable from the drop-down menu.

![Image showing a drop-down menu with options and a checked Disable box]

b. Touch Ring

![Image showing a Touch Ring interface with an Enable/Disable button]

The default setting of Touch Ring is enabled. If want to disable it, please click the Enable/Disable button.

**c. Reminder Displays**
INSTRUCTION FOR WINDOWS SYSTEMS

When *Reminder Displays* button is pressed down, the screen will display the functions of the Express Keys, such as the bellow picture. The function of that button cannot be disabled.

![Image of Express Keys functions]

**d. Double-Click speed setting**
Open *Hanvon Tablet* folder in *All Programs*. Choose *Mouse Setting*, then users can drag the slider to adjust the double-click speed and scope, and test the setting on the folder icon.

3.2 Installation

Connect the graphic tablet’s USB cable to the computer’s USB port.

**Step 1**
Insert the driver CD into the CD-ROM drive then find the install file in MacOS X folder, click on the Install.dmg icon to run the file.
Step 2
Double-click the Install icon.

Step 3
Click Continue in the reminder window.

Step 4
Please read the license agreement carefully then click Continue. After that click Agree to continue the installation.
**Step 5**
Click *Install* to install the tablet driver.
Step 6
When the install process is finished, please click Logout and reboot your computer.
3.3 Uninstalling
Open HWTablet folder in Applications. Choose Uninstall to remove the tablet driver.

Please click OK when the driver has been removed. (Suggestion: Reboot the computer)
3.4 Configuration
Connect the tablet to your computer by USB cable and port.

The *HWTblt* icon has been added in the applications. Double-click the *HWTblt* icon to open the tablet control panel.

3.4.1 General Configuration
a. Adjusting Pressure Sensitivity
Pen pressure sensitivity can be adjusted by dragging the slider between soft and hard. The right area is the pressure test area. Adjustment can be saved by clicking the Save button, or can be canceled by clicking the Cancel button.

b. Pressure Curve Graph
Pen pressure sensitivity changes are displayed on the Pressure curve graph. The images below show the graphs for light and heavy pen pressure respectively.

c. Pressure Testing Area
The right area is the pressure test area which is for testing the pen pressure. All the writing and drawing in the test area can be cleared by clicking the Clear button.
3.4.2 Mapping

a. Multi-Monitor Mode
You can drag the displays to the desired order if your computer has more than one monitor.
a) Full screen
Choose *Region Setting* and select *Total Monitors* from the drop-down menu. You will see the active area of the monitors corresponding to the area in table is mapped.

b) Monitor #1
Select *Monitor #1* from the drop-down menu to set the area in the tablet to control Monitor #1.
c) Monitor #2
Select *Monitor #2* from the drop-down menu to set the area in the tablet to control Monitor #2.

3.4.3 Express Keys Setting

a. Express keys
There are eight express keys on the tablet. You can set the functions for each key from each drop-down menu in *Key Setting*. Click *Save* to save the setting or click *Cancel* to quit. The Touch Ring is for quick scrolling, zooming, controlling brush size, and enable rotated.
INSTRUCTION FOR MAC SYSTEMS

You can select *Launch Application* from the drop-down menu, then choose one application program you want to run, click *open* and then click *Save* to save the setting.

You can also define the function by choosing 📦 from the drop-down menu for each key and select shortcut from the *Key Bindings*. 
b. Disable the Touch Ring
Choose Disable Scroll to disable the touch ring on the tablet.

c. Reminder Displays
It is used for displaying settings of custom express keys. When this button is pressed down, the screen will display the functions of the Express Keys. The function of that button cannot be disabled.
Chapter 4 Bundled Software

4.1 Hanvon Shell

4.1.1 Shell Summary
Hanvon Shell is a shortcut startup application for starting bundled Hanvon Software or other software.

Default startup style: it will be operated automatically when you startup your computer; if user exits shell from the application, it will switch to the manual startup style; double click the shortcut icon on the desktop to startup the Shell toolbar.

**Main interface will be shown as following:**

![Shell Toolbar Image]

Icons explanations as following:
1. Area for Dragging Shell
After opening shell toolbar, you can drag the icon to adjust the positions at up, down, left and right locations on computer’s screen;
When cursor have been left the toolbar for 5 seconds or later, Shell toolbar will be hided, Single-click it to display the main interface;

2. PenWrite
Editing Microsoft Office documents formatted as: Word, Txt, Excel and PPT by handwriting directly;
PenWrite Provides English, German, French, Italian, Dutch, Spanish, Swedish, Portuguese (Portugal), Portuguese (Brazil) multi-languages recognition

3. PenWrite Asia
Editing Microsoft Office documents formatted as: word, txt, Excel and PPT by handwriting directly;
PenWrite Asia Provides Simplified Chinese, Traditional Chinese (Hong Kong), Traditional Chinese (Taiwan), Japanese and Korean languages recognition
4. **PenSign**
This program enables you to add your handwriting signature in a document such as Microsoft Office word /PPT;

5. **PenMail**
Providing handwrite email in Outlook Express or Windows Mail.

6. **PenMark**
Providing handwrite mark on desktop or pictures;

7. **WhiteBoard**
A software application simulates Electronic Whiteboard. The monitor is like a marker board in front of users and become a simplified Electronic Whiteboard through a projector.

8. **System Menu**
Configure shell setting

9. **Tablet Setting**
Configure tablet setting
4.1.2 System Menu Shell

Click to enter Shell configuration interface shown as following figure:

Position: Set the position for Hanvon Shell on the screen;
Icon Size: Set the icon size shown in the Hanvon startup toolbar;
Transparency: Set the transparency for Hanvon startup
BUNDLED SOFTWARE

toolbar.

4.1.3 Tablet Setting

Click to enter tablet setting interface shown as following figure:
Delete: Delete the current icon or separator;
Options: Change name and icon of the current software
Location: Find the target file position which the software is saved.
Add Separator: Add the separator in the location where the cursor is placed.
Setting: (the function is the same as System Menu)
Next Page: Turn to next page
4.2 PenWrite

Click [image] on the shell to open **PenWrite** application. Open WORD application for editing, Then users may handwriting input words, sentences, punctuation & symbol and numbers in **English, German, French, Italian, Dutch, Spanish, Swedish, Portuguese (Portugal), Portuguese (Brazil)**. The handwriting characters would be turn to be text automatically to the location where the cursor was placed.

Click [image] on the shell to open PenWrite Asia application. Open WORD application for editing, Then users may handwriting input characters, punctuation & symbol and numbers in Simplified Chinese, Traditional Chinese (Hong Kong) , Traditional Chinese(Taiwan) , Japanese and Korean.

Note: Please confirm the cursor’s location firstly, and then start handwriting.

PenWrite and PenWrite Asia have the same main interface.

Instruction as following:

Chapter 5 Maintenance

5.1 Pen Holder

Front view with pen placed in the pen holder

Pen holder with pen nib storage
5.2 Exchange Pen Nib
If users need to change pen nib, please using tweezers, grasp the nib and draw it out. Once removed, a new nib may be inserted into the pen.

5.3 Cautions
Do not put the tablet on a metal surface, such as iron or aluminum alloys.

Due to a CRT monitor’s electromagnetic radiation, do not use the drawing tablet too close to a CRT monitor.
Appendix

Warranty

Limited Warranty

Hanvon Corporation warrants that this product is free from any defects in workmanship or materials under normal use and conditions for a period of two (2) years for Europe and one (1) year for other region from the date of original purchase. If such a defect is discovered within this warrant’s limitations, Hanvon agrees, at its sole discretion, to repair or replace the same item with one of equal value, free of charge to the original consumer purchaser.

This warranty shall not apply if this product is modified, misused, tampered with, subject to abnormal working conditions, or transferred to someone other than the original consumer purchaser.

Warranty Redemption for US Market Only

Should this product fail to function in a satisfactory manner, please return it to the store where it was originally purchased. Please be sure to contact us at tech@hanvon.com.cn to
obtain a Return Merchandise Authorization Number before you return it, and within your email please include your name, address, phone number, a copy of the original receipt, serial number and the reasons for returning the product.

Should this fail to resolve the matter and service is still required by reason of any defect or malfunction during the warranty period, Hanvon Corporation will repair or replace this product without charge (except for a charge for handling, packing, return UPS/postage, and insurance).

Technical Support

Should you have any questions or comments, please contact us via tech@hanvon.com.cn, or visit our website at:
